

Wall and Fence Height Guidelines

These guidelines cover height requirements for any walls and fences constructed on your property which may or may not be attached to the house or additional structures. A complete description of these guidelines are covered in the Puerta Del Mar Rules and Regulations.

Dimension "A" – Maximum height of any wall or fence cannot exceed 3.00 meters.

Dimension "B" – Solid walls or structures in the front of the house cannot exceed 50% of the total property width.

Dimension "C" – Balance of the frontal property can optionally be fenced with wrought iron (such as a wrought iron gate in front of your garage).
